

An. Code, 1924, sec. 335. 1912, sec. 276. 1914, ch. 810, sec. 8.

379. After April 16, 1914, the State, a County, municipality, district, corporation, company, institution, or person shall not install a system of water supply, sewerage or refuse disposal, for public use, nor materially alter or extend any such existing system, without having received a written permit from the State Board of Health so to do; nor shall any permit for this purpose be issued until complete plans and specifications for the installation, alteration or extension, together with such information as the State Board of Health may require, have been submitted and approved by the Board. All construction shall take place in accordance with the approved plans. In case it shall become necessary or desirable to make material changes in plans or specifications, such changed plans or specifications, together with a statement of the reasons for the alterations, shall be submitted to the State Board of Health, and no material changes shall be embodied in the actual construction until they are approved by the Board and a permit issued therefor. After completion of the work a certified copy of the plans in full, showing the work as built, shall be filed with the State Board of Health for permanent record. The State Board of Health shall be empowered to make and enforce such rules and regulations regarding the submission of plans for approval and record as it may deem reasonable and proper. Before plans are drawn, or application filed, for a prospective system of water supply, sewerage or refuse disposal, a preliminary statement concerning the improvement may be made to the State Board of Health, whereupon the State Board of Health shall, if requested, outline the general requirements of the case conformity with which would meet with the Board's approval. Whenever application shall be made to the State Board of Health for a permit under the provisions of this Section, it shall be the duty of the Board to examine the application without delay, and, as soon as possible thereafter, to issue said permit, disapprove the application, or state the conditions under which said permit will be granted.

This section is sufficient authority for State Health Department to assent to discharge of sewage into Spa Creek by city of Annapolis. *Cityco Realty Co. v. Annapolis*, 159 Md. 160.

An. Code, 1924, sec. 336. 1912, sec. 277. 1914, ch. 810, sec. 9. 1933 (Special Sess.), ch. 73. 1936 (Sp. Sess.), ch. 40.

380. The State, or any County, legally constituted public water, sewerage or sanitary district, or any municipality, upon which an order of the State Board of Health is served, shall through its proper official or department, proceed to raise such funds as may be necessary to comply with such order within the time specified. When approved by the Governor and Attorney-General, any County, legally constituted public water, sewerage or sanitary district, or municipality may raise such funds, or any part of them, by issuing bonds, stocks or notes without prior legislative enactment; and the question of issuance of such bonds, stocks or notes shall not be required to be submitted to a vote of the people. The money made available by bonds, stocks or notes so issued shall constitute a sanitary fund, and shall be used for no other purpose than for carrying out the order or orders of the State Board of Health. At no time shall the total outstanding issue of such bonds, stocks or notes exceed two per cent of the total value of all property within the limits of such County, district or municipality, as listed and assessed for taxation. The amount of bond, stock or note issue as allowed by this Section may be in addition to the total indebtedness
